December 11, 2008

Dear Recovering American Soldier~

IAAP (International Association of Administrative Professionals) is a worldwide not for profit organization which has a large Chapter on Cape Cod.

Our membership demographic is comprised of Cape Cod professionals from the private and public sector including Police, Fire, Municipal Government and School Districts, all interested in improving their administrative skills through technology and education, while giving back to the community through local community programs such as our Astronaut appearance & interaction with local students, Adopt a Spot programs, local walkathons, and our Nursing Home visitation program, just to name a few.

During the Holidays this year our Cape Cod Chapter visited a local nursing home, not only to spread Christmas Cheer but to help some of the nursing home residents fill out Holiday cards to American soldiers. This gives them a feeling of accomplishment and allows them a rare opportunity to feel they are once again, sharing in the season of giving. Each resident sending you a card has or has had a connection to the military in some way; either they or someone they love has served their Country as you are doing now.

The letter enclosed within your card is what we felt each of these bed ridden Nursing home residents would say to you if they could, however as you may have noticed by the unsteady handwriting, they are unable to put to paper what they feel, so we've attempted to convey theirs and our message in a letter we hope will mean something special to every Soldier receiving one.

You are truly in our hearts and minds and we all hope for your safe return as quickly as possible.

Happy Holidays to you from the Cape Cod Chapter of IAAP!!

Respectfully,

Marianne Hughes
Cape Cod Chapter of IAAP Vice President
